Annexure-X

Technical Specifications for Cablator with Tonsil/Edenoid/ Laryngeal Wand
<ul style="list-style-type: none"> • Coblation system capable of performing tissue ablation, tissue shrinkage and haemostasis via controlled, precise plasma layer
<ul style="list-style-type: none"> • Should not have any need for the secondary patient grounding pad
<ul style="list-style-type: none"> • Coblation wand should have bi-polar multi-electrode technology that will allow a uniform production of plasma
<ul style="list-style-type: none"> • The plasma formed should be with the help of external saline delivery mechanism rather than relying on interstitial fluids to ensure consistent plasma formation.
<ul style="list-style-type: none"> • Should be controlled by regulation on the generator from setting I-9
<ul style="list-style-type: none"> • Should be digital settings which also covers the coblation and coagulation regulation
<ul style="list-style-type: none"> • Should have facility to use a foot control for convenience and ease of use
<ul style="list-style-type: none"> • Should be facility of separate switches at the foot control for coblation and coagulation
<ul style="list-style-type: none"> • Regulation of Coblation settings from the foot control pedal is essential
<ul style="list-style-type: none"> • Should have wands which have ablation, coagulation and hemostasis together with suction and irrigation
<ul style="list-style-type: none"> • Should be able to take 13 or more different types of wands for ENT procedures such as:
<ul style="list-style-type: none"> <ul style="list-style-type: none"> o Tonsillectomy - should be compatible for dissection as well as volumetric reduction of tonsil tissue
<ul style="list-style-type: none"> <ul style="list-style-type: none"> o Adenoidectomy - should be a separate wand than tonsil wand with large flat screen surface area and large suction port
<ul style="list-style-type: none"> <ul style="list-style-type: none"> o Sinus surgery – should be separate wand with thinner shaft diameter for nasal surgery
<ul style="list-style-type: none"> <ul style="list-style-type: none"> o Laryngeal surgeries – should also have a separate Wand with a fine single 2mm loop electrode on one side of the wand for fine dissection work and a second wand with a large flat screen electrode for bulk removal of tissue in the larynx. Wand lengths should be atleast 19.5cm and 16cm and 16cm respectively for easy reach
<ul style="list-style-type: none"> <ul style="list-style-type: none"> o Turbinate surgeries.: two separate wands for turbinate resection wand the electrode should be apposite the saline delivery part to ensure smooth functioning in an enclosed area. It should also have suction and irrigation facilities.
<ul style="list-style-type: none"> <ul style="list-style-type: none"> o UPPP and other OSA related surgeries – should have a wand with a needle like tip for cutting and channelling and also a saline delivery sheath to help plasma formation for easy cutting effect
<ul style="list-style-type: none"> • Should be able to recognise the coblation wands as a precaution and safety measure must automatically shift to the default settings of coblation and coagulation
<ul style="list-style-type: none"> • The smart chip sensing system should have provision for automatic upgrade depending upon any new wand
<ul style="list-style-type: none"> • Must be provision for sub-mucosal tissue ablation and shrinkage
<ul style="list-style-type: none"> • Should be with a saline irrigation controller with manual and auto-mode
<ul style="list-style-type: none"> • Auto-mode should allow the irrigation to flow when the footpedal is activated and stop the flow when footpedal is idle
<ul style="list-style-type: none"> • Shouldn't be any separate power requirements for the saline flow controller. It should derive power and run in synchronization with coblation surgery system plasma generator.
<ul style="list-style-type: none"> • Should be US FDA & CE approved.
<ul style="list-style-type: none"> • There should be a Mumbai based local service centre for convenience
